2010 Outlook

2010 Outlook

Net new store addition:

-Hypermarkets: 7-10 stores;

-Supermarkets: ~15 stores;

-Discounters: 200-250 stores.

Capital Expenditures of up to RUR 18 bln

Due to significantly lower food inflation to date and in the official forecast rate for the year, X5 provides a more conservative 2010 revenue growth outlook in the low-20 percent range in nominal RUR terms. Actual top line performance will depend on inflationary trends and the timing of a recovery in consumer spending.

We expect consumer spending to begin to show improvement towards the end of the year, and this, in combination with new store openings and post-integration contribution from Paterson in the second half of 2010, should enable X5 to deliver on its objectives.
